

1 Assignment Weights: There are 3 ways to weight assignments.

Add an Assignment

Description: Chapter 1 Review Questions

Assignment Type: homework Sequence: 1

Date Assigned: 8/18/2003 Date Due: 8/18/2003

Points: 50 Weight: 1

Assign to Student Group: All Students

1. Assign the number of points to reflect its importance.

OR

2. Weight it differently. (For example if all your assignments are worth 100 points, but this assignment is a test and it needs to be worth more Weight it 2 or more.

OR

3. Assign a weight to Assignment Types:

- On the Teacher Home Page, click **Setup Calc Methods & Weights**.
- On the Average Calculation Setup screen, select the appropriate class.
- Select Choose a calculation option. Use the same calculation for each grading period or Use a different calculation for each grading period.
- Select Weighted Average in the Select the Calculation Method list.
- Complete the percent you want each assignment type to have. In the example is Homework 10, In Class 10, Tests 50, Quizzes 30.
- You can copy this into your other classes.
- Click Save

Choose the calculation frequency:

- Automatically recalculate the gradebook after each change
- I will recalculate the gradebook when needed

Choose a calculation option:

- Use the same calculation for each grading period
- Use different calculations for each grading period

Select the Calculation Method: Weighted Average ▾

If you have chosen to use Weighted Averages, fill in the following section:

Assignment Type	Weight
Homework	<input type="text" value="10"/>
In Class	<input type="text" value="10"/>
Tests	<input type="text" value="50"/>
Quizzes	<input type="text" value="30"/>

Copy this setup to the following classes:

- *ENVIRONMENTAL SCIENCE: 25
- *ENVIRONMENTAL SCIENCE: 27
- *GENERAL BIOLOGY A: 1
- *GENERAL BIOLOGY A: 3
- *GENERAL BIOLOGY A: 4
- *GENERAL BIOLOGY B: 21
- *GENERAL BIOLOGY B: 23
- *GENERAL BIOLOGY B: 24
- ENVIRONMENTAL SCIENCE: 25
- ENVIRONMENTAL SCIENCE: 27
- METEOROLOGY/ASTRONOMY: 5
